

Newsletter December 2013

Brewery Huyghe in 2013...

The past year we have been focusing on the environment and sustainable brewing. In that respect the brewery has made a tremendous progress. We have reached the ambitious environmental objectives as part of the environmental charter of East Flanders. We are on schedule of becoming the most sustainable brewer in Belgium. New clear lager beer tanks, a new cooling installation and installing extra solar panels ...

Award after award

Our beers are being well appreciated and have won many awards this year. The last months Delirium Tremens and La Guillotine both have won 2 silver medals, once at the International Beer Challenge in London and once at the World Beer Challenge in Estoril (Portugal). Delirium Tremens also won bronze at the Brussels Beer Challenge (BBC). During the same competition the new and exclusive Deliria ...

Delirium Tremens in cans?

The brewery is currently investigating the possibility of selling Delirium Tremens in cans in the US. Are you also looking forward to this? If we reach [25,000 likes on our Facebook](#)

[page](#) before the end of January 2014 we will start producing Delirium Tremens in cans for the US market. Obviously the beer will also remain available in bottles and kegs.

Environmental achievements

- Brewery Huyghe is participating for the first time in the environmental charter of East Flanders. Prior to this we were audited, and succeeded cum laude. As part of the charter we identified and implemented a number of environmental measures:
 - A new environmental policy declaration was written and put on the website.
 - New clear lager tanks (4*600HL) were bought, which resulted in ...

In 2014...

- The brewery has decided it will participate again in the environmental charter next year and has identified new environmental challenges to realise. The next innovations are on the

- Acquisition of a new steam kettle running on gas, which will replace the less efficient fuel oil kettle. Moreover, the new kettle will discharge far less soot, NOx and dust. The new kettle will ...
